DK LABEL DK TAPE

⋯ Always at your side

Fast Die-Cut Labels

Our die-cut label range will give you complete label flexibility, enabling you to print just one label, with no wastage, or larger quantities quickly and efficiently. You can even print labels directly from MS Word,® Outlook® and Excel® in three easy steps:

1 Highlight text

2 Click on the P-touch icon

3 Your label is now ready to print

Option to print labels without the need for a PC

With 8 in-built label designs, and the ability to store up to 36 of your own designs, you can print labels at the touch of a button without the need for a PC. This will enable you to print labels whenever and wherever you need them. Insert logo's, symbols and other graphics, or use the real-time clock to add today's or a future calculated date/time of your choosing.

Barcodes (including in-built)

With a print speed of up to 90mm per second and a print resolution of 300dpi, the QL-650TD is perfect for creating barcode labels quickly and easily. Choose from up to 15 popular barcode formats, including CODE39, CODABAR(NW-7), QR Code, and PDF417.

In-built fonts with ESC/P emulation

System integrators and programmers can now create totally customised label printing solutions. Send ASCII text and ESC/P commands to the serial port, as an alternative to using the supplied Windows/Mac printer drivers or editor software.

Banners

Brother's continuous length durable film tape is perfect for creating signage and banners, up to 1m long.

Label design software

The QL-650TD is supplied with two software programs;

Address Book
Simply select one of the contacts saved in your address book, click on one of the many label designs supplied, and preview your finished label before printing.

P-touch Editor
This software option gives total flexibility. Choose from a wide range of fonts, text, barcodes, images, frames, clipart and symbols. Be totally creative and add a personal touch to your labels.
